

CLASS IN NATURE

ŞEHİT UZMAN ÇAVUŞ İLKOKULU

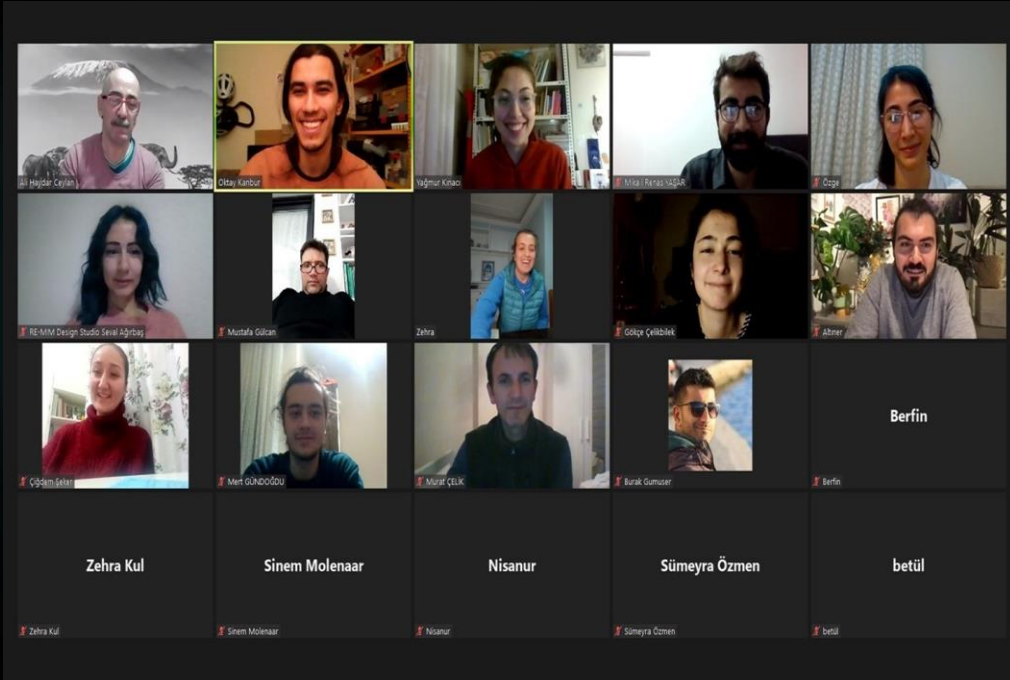

OPEN CLASS

We started in winter

We had meetings.

Yağmur, an architect and her friends, a volunteer group, designed our open class.

The carpenters began to raise our open class on the 19th of June.

They tried to finish the construction before Öztürk, former principal, left.

They worked under the hot sun.

They worked
hard.

And finished the construction in two weeks.

Now our kids and teachers use it as a class.
